PAPER

Please find below and/or attached an Office communication concerning this application or proceeding.

The time period for reply, if any, is set in the attached communication.

Office Action Summary	Application No. 10/538,018	Applicant(s) SCHWARZENTHAL, DIETMAR	
	Examiner Kyle M. Riddle	Art Unit 3748	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

DETAILED ACTION

Response to Amendment

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 4-11 are rejected under 35 U.S.C. 102(b) as being anticipated by Phoenix et al. (U.S. Patent 5,361,736).

Phoenix et al. disclose a variable valve timing device comprising:

- a six cylinder overhead camshaft engine (column 2, lines 29-31);
- a valve operating means to advance or retard valve opening/closings (column 1 lines 60-68);
- a cam 6 contacting a valve tappet for opening and closing intake and exhaust valves and vary the phase of the camshaft with respect to the crankshaft (column 2, lines 30-38, lines 50-60);
- adjusting the camshaft toward late and toward early during an immediately subsequent a valve stroke operation to decrease a valve opening time;
- adjusting the camshaft toward early and toward late during an immediately subsequent valve stroke operation to increase valve opening time (column 3, lines 40-65, column 4, lines 63-65; Figure 10).

Response to Arguments

3. Applicant's arguments filed 27 July 2007 have been fully considered but they are not persuasive.

4. Applicant argues on pages 6 and 7 that the variable valve timing system of Phoenix et al. is different than applicant's since applicant's invention makes two adjustments to the camshaft in opposing directions during valve operation. Examiner submits that the claim language does not fully support this limitation, and in interpreting the claims in their broadest sense, the device of Phoenix et al. clearly reads on the claims. Examiner suggests applicant modify claims to more clearly define the invention by adding the necessary limitations not present in the prior art.

5. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
